The following further guidelines are issued for regulation and restriction of use of loudspeakers etc.

(1) For functions like Marriages, Birthday Celebrations, house-warming and the like, only box type loudspeakers should be used and horn type sound amplifiers should be totally banned. The sound created by the amplifier will confine to the houses or hills where such functions are held.

The call for prayer (Azan) in the mosque is relaxed in this case as it is only one minutes duration. For religious discourses, playing of devotional songs, Friday sermons in the mosque and also other ceremonies and functions in the churches this rule should be strictly enforced.

(3) The use of loudspeakers in the street and vehicles must be avoided as far as possible. Without prior permission of the Police nobody will be permitted to use loudspeakers.

(4) Air horns and high type horns should be banned.

(5) Under no circumstances, sound amplifiers shall be used between 10-00 p.m. and 6.00 a.m.
